Reasons for Allowance

Claims 1-16 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Kienzler et al., taken alone or in combination of other references, does not teach or fairly suggest a circuit comprising, among other things, a control circuit connected only to one of said first and second driver amplifier units for controlling a turn-on resistance of said power transistor circuits and for setting the power transistor circuits in the two driver paths to have a mutually corresponding turn-on resistance, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
